	Quiet: 9 head	Quiet: 4 head Slightly Stirry: 5 head	Temperament not assessed in Paddock
	Cows were very pleasant to handle throughout the whole assessment with only a small amount slightly stirring when being mouthed, however cows flowed very well through the race and yards and were very calm once released into the bigger yard with calves.

Notable Traits	Traits 3 Head Slight blight scar		
Assessor Comments	A tidy line of Angus x cows and calves. Cows are predominately good framed cows that are doing a good job on the calves especially given the drier seasonal conditions in the area. Calves display good thickness and bone for their age. Cows are still in good fresh condition and are ready to go ahead given the chance on better feed. Cows and calves would be a handy trade option in current market conditions with the fat cow market strong and weaner market strong also. Please Note - Vendor has another lot in this same sale.
