Assessor Comments	On offer are 24 Magnificent PTIC Angus Cows. These cows are Merridale Blood and were joined from the 22/12/25 - 26/01/26 to Rennylea Angus Sires. Pregtested on the 6th May by Herd Linx, all 24 were tested as PTIC, showing their high fertility rate with only 5 weeks joining. Purchased from Auctionsplus as Cows & Calves in January 2026 ex Deniliquin NSW, these cows have raised outstanding Angus calves that were weaned earlier this year. As shown in videos these cows have been well handled and are extremely quiet. 5 head were mouthed and all presented as sound mouths with no wearing/spreading. These large framed cows present a tremendous opportunity to calve down in the peak of spring for a trade or as an addition to a breeding herd with a number of years ahead of them. Please note cows are within a month until due to commence to calve, this must be taken into consideration for delivery timing & distance to travel for successful purchaser.
