	A Pleasure to work through the yards and in the paddock					
	Bikes , On foot , Vehicles					
Assessor Comments	A small mob of exceptionally well bred PTIC Speckle Park Females. These females are F3 genetically they carry 87.5% Speckle Park content and 12.5% Angus content. They are joined to Tooperang Titan TBCT54 a registered Speckle Park Bull. The progeny from this cross will be 93.8% Speckle Park and classified as full blood. The vendor has invested heavy in the breeding program of these females with Sires from Minnamura, JAD, & Ewyn. Aero Creek Speckle Park are a commercially focused Speckle Park Stud focusing on early growing, easy doing cattle with calving ease. These heifers are a great example of what they are trying to breed. These Heifers were held over and joined to line up for an Autumn calving. They will commence calving around the first week of February 2027. Whether adding to an existing herd or as foundation breeders these heifers will perform.
