Assessor Comments	A lovely lot of well bred Cows and Calves. All the work done. These cows were purchased in November with CAF and obviously cycled again before they were delivered. The calves at foot now are by the breeders top Weebollabolla sires. The cows are in good store condition and genuine 7 yo. Calves are fresh and getting plenty of milk. Cows are medium to large frame and weighed from 496 to 624 kg to average 566 after overnight lockup. The cows have not had a bull with them since calving on vendors property. Ideal splitter units later on or addition to any breeder program.
