Assessor Comments A very useful line of Angus cows PTIC 5-8 months in calf. These cows are genuine ages (7 yo) and all mouths sound at assessment. They were depastured with a son of Gilmandyke Beefmaker in Dec on arrival at vendors property. They have raised very good calves indicating they are good mothers. Medium framed females they averaged 539 kg after overnight curfew. Most are in forward store condition. Good commercial units with plenty to offer yet. The last lot of calves were very even indicating they cycled in a close window. Please note: Vendor has another 13 of the same cows PTIC (blue tags) on offer this sale. Also Shorthorn cows PTIC to Angus bull.
