| Assessor Comments | A remarkable line of F1 registered Wagyu cows (used as a recipients for embryo transfer program) with F2 calves at foot. These cows are in forward fat condition containing sort after Wagyu genetics. Bishop Wagyu have been producing Wagyu X Angus F1 & full Blood Wagyu cattle since 1998. Their Angus X Wagyu cattle are constantly averaging over 440kg HSCW after 350 DOF with an average MBS of 6+. The Bishop herd cows have consistently produced F1 calves every year for the Wagyu feeder trade, selling to feedlots. A rare opportunity to purchase some brilliant future breeders. |
