Temperament

| Yards | Crush | Paddock |
|---|---|---|
| Quiet: 10 head | Quiet: 10 head | Temperament not assessed in Paddock |

These heifers have had the most handling of the 3 lots listed. Cell grazed behind a single hot wire & moved every day or so, walking up to the tape gate & waiting patiently to be let forward on to the new fresh pick each time. Their temperament was reflected in the yards also. Drafting very easily off their calves, being sensible in the race/crush. Exiting quietly & being calm and approachable in the paddock on foot for photos/videos. Very hard to fault temperament & a pleasure to deal with.

Notable Traits

| | Traits |
|---|---|
| 1 Head | White splash on the udder/flank |

| | |
|---|---|
| Assessor Comments | Exceptional line of hard to fault young females. Bred by the Hearn family from Morven NSW, carrying 25+ years of pure Rennylea Angus Blood. These heifers were originally part of the Hearn's 'keeper draft' only being sold due to a high conception rate in their A.I program. Conceived in the first round of natural joining and all calving within 2 weeks, giving a very nice even drop of calves at foot. This is a lovely line of young mothers with everything is right about them. Structurally correct, with a very long, deep, soft maternal barrel on them. Carrying a very good supply of milk and doing an excellent job with their young calves, all looking fresh, sappy and loved. These soft, pretty faced mothers have a very easy doing style about them and would improve most existing herds or be the pinnacle for a starting point, with the added bonus of majority heifer calves to choose next year's keepers from. Buyers please Note. Vendor has 3 lot's alike in the same sale giving buyers an opportunity to put together 29x29 Pure Rennylea Breeders. *Being sold in their paddock lines - Drafted prior to calving to help with feed management & mothering. |
