Assessor Comments	Buyers, on offer is a quality line of young first-calf Droughtmaster cows with 20 calves at foot. These cows were selected and purchased as heifers with the plan for them to be retained as breeders and are only being sold due to the dry conditions. Cows are in light condition but are still doing a great job on the calves. 5 dry cows calved out of season and have recently had their first calves weaned. These 5 cows have been running with the bull until August 2026.
