Assessor Comments	Buyers an opportunity to purchase a good quality line of station mated Angus/Angus & Angus Cross cows and calves. With over half of the mob being 1st & 2nd calvers these units offer as a good restocking opportunity, only being sold due to drying conditions. Alternatively they would suit to split & trade with some big framey cows in the mature cows. These cattle were genuinely quiet cattle to handle at assessment and are electric fence educated. Cows are milking well and doing a good job on their calves with the lead of the calves starting to show good shape. Calves are unmarked and were sired by an Angus Composite bull, with 4 calves throwing back to a red coat colour. Cows have been running with an Angus bull from a local stud since prior to calving with the bull removed on day of assessment.
