Handled With	Bikes , On foot , Vehicles														
Assessor Comments	A quality line of 22 outstanding Angus heifers and calves, averaging 510 kg at assessment. Heifers are 18 to 22 months of age, with three milk-tooth heifers and the balance being 2-tooth. They are presented in forward store to store condition, displaying strong feminine traits and excellent breeding potential. These females feature proven Knowla and Highrent Angus bloodlines, with calves sired by Knowla (the 13 Knowla heifers sired to Knowla softfire s43)and Highrent Angus bulls. All calves are ear-tagged and mothered, with matching identification tags to their respective heifers. The heifers have good vessels of milk, with fresh, healthy calves at foot. There is 12 bull calves & 10 Heifer calves. These quality young females would be a valuable addition to any breeding operation. No heifers have had access to bulls since calving, providing buyers with confidence in their current breeding status. A genuine opportunity to secure a quality line of productive Angus females, combining proven genetics, strong feminine traits and calves at foot.
