	Bikes , Dogs , Horses		Temperament not assessed in Paddock
Assessor Comments	A very good line of young cows and calves, quiet and a pleasure to work with throughout the yards and assessment. The cows carry highly respected Angus bloodlines including Knowla, Sugarloaf and Urban, with the calves carrying proven Knowla Q41 genetics. These are well-regarded bloodlines with a strong history of performance and doing ability. These cows were originally selected to be retained within the breeding herd; however, regrettably, seasonal conditions have necessitated their sale. A quality opportunity to secure young, functional breeding females with proven genetics, excellent temperament and plenty of production ahead of them. They would be a valuable addition to any commercial breeding program. - 1 cow with slightly cloudy eye. - 2 cows with white pigment on udder NOTE: This vendor has another lot listed this week as well (13 cows with 2nd calf at foot) There is an opportunity to put together a neat 2 decks of vendor bred cows and calves) Contact Grant 0428 685 878 for further information
