	Cows displayed good temperament overall. They are currently full of spring feed and just a had a little extra life about them. Vendor was up close with them in a force yard to keep them moving up the race. They did like to try and escape pressure going into corners of the yard. All settled well once left with their calves in larger yard as per videos. There was only one cow that didn't settle, she was constantly moving amongst the mob. Anyone with stock sense will be fine with these cows.

Assessor Comments	Presented is a nice quality line of 20x20 NSM cows with CAF. These are genuine 7 year old cows that have reared a calf each year, and still have plenty of life left in them. They are in tip top condition having recently calved and are doing an excellent job on their calves. Calves display evenly and are fresh as daisies. Vendor has a good working herd of moderate framed females, that more recently of been influenced by Arden, Mundarlo and Milong Angus sires, all selected on type, softness and structure. Cows are set up for a spring joining to a bull of choice. Cattle come recommended and have always been sound performers even in tough times. They look an absolute picture, coming out of a booming winter/early spring period and would be a low maintenance, welcomed addition to anyone's operation.
