Assessor Comments	BUYERS BE AWARE. These cattle co graze and use same lane and road ways with sheep that are positive with foot rot. With that aside they would be fine to any cattle property. Great straight line of 2 year old PTIC Angus heifers, 2 heifers have a little white on belly but not in front of the navel. As vendor is a spring calver normally these are are of season for vendor to calve down so we are offering them for sale. These heifers are showing very good growth, stretch and frame over a good bone animal. PTIC to a low birth weight bulls. What a great opportunity in purchase vendor bred heifers. Vendor has 2 other lines in this sale which may help with truck loads.
