Assessor Comments	A eye catching line of 26 quality PTIC heavy bodied Angus heifers 487kg in forward condition showing plenty of bone and muscle depth on moderate to large frames with plenty of room. These heifers were joined to a low birthweight Granite Ridge sire to start calving end of November (sire has 50 calves on the ground out of heifers so far and zero assistance) These quality young breeders were very quiet and moved easily through the yards with no vice and would make a valuable addition to any herd.
