Assessor Comments	Buyers, here is a genuine line of the entire Bidgel grazing EU replacement PTIC No 5 Angus & Angus cross heifers that are picked out of 450 heifers. These heifers ooze femininity with fertility to back them up with heifers only being joined for 49 days to low birth weight Bowen Angus sires. Heifers show good length and depth with nice natural volume with room to keep growing out. This line of heifers show nice softness and very feminine types. Bowen bulls were selected for very low birth weight for ease of calving. They were a pleasure to handle through yards being extremely well handled. This a a very reluctant sale of there no 5 replacement breeders, only getting sold due to very dry seasonal conditions.
