	Cows and calves were good to handle during the assessment. An odd cow was unsettled under pressure and in weighbox but settled soon after return to mob.					
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	A genuine herd dispersal of Angus and Angus X breeders, ranging from heifers through to mature aged cows. The mob was originally assessed as 120 cows. At the time of assessment, calves six months of age and older were removed and weaned; however, their mothers remained within the assessed mob. These cows have since been identified and drafted out, resulting in a reduced offering from the original assessment. The cows were originally purchased as good quality breeding females and have proven to be productive breeders for the vendor. They are offered for sale solely due to a change in the vendor's circumstances, presenting an opportunity to secure a genuine line of proven Angus and Angus X breeding females
