		Stirry: 1 head		
	Heifers remained calm through the assessment period the odd heifer did get agitated when separated from her calf but settled when rejoining the mob.			
Handled With	Bikes , Dogs , On foot , Vehicles			
Notable Traits	Traits			
	1 Head Slight blue eye			
Assessor Comments	An outstanding opportunity to purchase a quality line of young females with all their lives ahead of them out of the heart of the Otway herd they are doing an exceptional job raising their calves at foot. These heifers present in fresh, forward condition, displaying excellent depth and barrel, along with strong maternal traits. They are accompanied by sappy, well-grown calves at foot. All calves are by the AI sires which have all been selected for their positive growth & IMF whilst still retaining the maternal traits it is a credit to their program. The Otway herd has been established using females bought from the Bongongo Angus herd and using Bongongo and AI sires with breeding emphasis on 400day, moderate mature cow weight and fertility through preg test and raising calves. A genuine opportunity to secure a small run of front-paddock females that would be a valuable addition to any breeding program.
