	Typical bucket reared cows that are easy to handle, with one 2nd cross cow that was harder to handle not any trouble with experienced people.		
Handled With	On foot , Vehicles		
Assessor Comments	Large-framed vealer mother cows with their 4th and 5th calves at foot. Calves are by a Simmental bull and present very fresh and well muscled for their age, with two calves slightly older than the balance. The larger heifer calf is showing a small amount of ringworm on her face and neck. These cows would be well suited to continued vealer production and are ready to join to the bull of your choice
