Assessor Comments	BUYERS BE AWARE. These cattle co graze and use same lane and road ways with sheep that are positive with foot rot. With that aside they would be fine to any cattle property. A good small line of PTIC heifer ideal to put out and add value to purchase. Most of these heifers have been taken out of main line for showing colour or not true to Angus types. These heifers are showing good growth, stretch and frame over a good bone animal. PTIC to a low birth weight bulls. Vendor has 2 other lines in this sale which may help with truck loads.
