Assessor Comments

A nice line of 5 and 6 year old Angus cows and calves, This is a genuine herd dispersal of this age group cows. Cows have been grazing on oat crop. Cows were purchased as heifers from blue ribbon New england weaner sales. Calves at foot sired by Eaglehawk Angus bulls. 3 calves are 3 weeks the balance being older then 8 weeks averaging 97kg. Cows present in a healthy forward store condition and given the right opportunity there are compensatory weight gains to be had. They are moderate to large frame cows. Cows are putting lots into the calves. Calves are fresh and square. A good opportunity to purchase a large line of Angus cows and calves.
