Assessor Comments	A very nice line of Eagle Hawk bred heifers that have only come out to the west due to the seasonal conditions back home in the hunter earlier in the year. These heifers have adapted very well to the change of environment and feed type, proving their ability to thrive in any region they may end up in. These females have had no access to any bulls in their time at Mulyungarie and buyers should have confidence to take them home to join to the bull of their choice
