Handled With	Bikes , Vehicles
Assessor Comments	Outstanding opportunity to buy Elite Team Te Mania V (2024) drop Heifers & Calves. Most of the calves in this lot conceived in the first AI cycle with 30-40% born in mid-August to mid-September. Wave Hills are one of the most progressive Angus herds in the country, with the latest genetics introduced annually through an artificial breeding program (no bulls on the property since 2017). This enables the herd to access the elite Te Mania genetics and rapidly increase genetic gain. These young females present in excellent order displaying all the desirable qualities of the breed. AI sires have consistently been selected for high growth and carcass traits with recent long-fed steer consignments marbling at an average of 4.5 & over 450kg cwt - please see links to the AI sires of both the heifers & calves which highlight the combination of high growth & IMF selected for in the herd. Heifers were sired by Te Mania Savoy & Te Mania Pike, calves are by Te Mania Ungarie. These heifers have begun cycling highlighting the fertility within the herd. Vendor also willing to run a three round AI program this spring with a delayed delivery in early 2027 (at purchasers expense including agistment), please call if you would like more information. Vendor also has his own B-Double and can truck these at an economical rate (see delivery comments).This is a truly remarkable offering of some of the highest genetic merit Angus cattle in the country, an opportunity not to be missed.
