Assessor Comments	11 Angus cows with quality calves at foot. Calves are sired by leading AI sires including Quaker Hill Black Bandolier, Baldrige Command C036 and Sitz Resilient 10208. Cows weighed 451kg to 682kg, averaging 570kg at assessment, with calves weighing 48kg to 94kg and averaging 73kg. These cows are doing an excellent job on their calves, particularly considering the hard season. They are currently running on fescue pastures with no supplementary feeding, A very useful cow and calf unit that would make an ideal breeder starter mob or a quality addition to an existing herd. These females would normally be retained within the herd and are only being offered for sale due to seasonal conditions.
