Assessor Comments	The last of the "Strathcona" Cows. These cows while varying in age represent some of the best quality "Strathcona" and Rob Harris have to offer. meticulous records are kept in regards to sire and dam. the older cows in this mob have been retained for their ability to raise an excellent calf year on year. Merewah blood since 1996. a true testament to a life long passion to the Hereford and Poll Hereford breed. An opportunity not to be mist by the most astute Poll Hereford breeder. Absolutely docile in nature, proper doing cattle that have excelled in many feeding programs and competitions around the country. Big boned cows with length and depth, raising an excellent weaner calf. All calves (excluding 1) can be weaned immediately if the intending purchaser desires. Calves are 160kg to 375kg at assessment excluding the latest calf approx 80kg. Calves are very fresh and given the opportunity will make great vealers. Exellent 3 in 1 units, there's no work to be done here.
