Vendor Bred

No

Vendor has owned stock for More than 12 months

Stock History

Majority of cattle are vendor bred with only a very few that were purchased as heifers. Cows went south on agistment back in April of 26 from the New England, cows starting calving mid from July onwards.

Lifetime Traceable

100% of cattle in this lot are Lifetime Traceable

Breeding Comments

Cows are from a 25 year breeding program which has a foundation of Wattle Top, Glenavon and Bridge Water angus Genetics. Calves were sired Bridge water angus blood bulls.

Grazing Conditions

Improved fertilized pasture.

Returned same

Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment		
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives		
Health Treatments	Cows Drenched	05/04/2026	Cydetin Injectable
	Cows Vaccinated	05/04/2026	5 In 1 Booster
Vendor Comments	Cows came out of very tough and dry conditions back in April, since calved and now looking incredible cows will fit back into any quality breeding program to continue to produce quality offspring.		
Joining Details	Not Station Mated		
Any Access To Bulls or Stags?	To vendor's best knowledge, this lot has had no access to bulls or stags.		
Temperament	Quality Grades		
	Very Good	75%	
	Good	25%

Handled With	Quiet: 38 head	Quiet: 37 head Slightly Stirry: 1 head	Temperament not assessed in Paddock
	Steers were quite and easy to handle in and around the yards.		
Notable Traits	Traits		
	1 Head Birth Mark on head of a calf		
	1 Head Bottled tets on the two rear quarters of the udder.		
	6 Head Old pink eye scaring in one eye, resulting in a full blue eye.		
Assessor Comments	A Very good quality line of 5 to 8 year old Angus cows and calves on offer, this line of females and their calves come from a breeding program of 25 years that are a base of New England genetics including Wattle Top, Glenavon and Bridge water Angus blood lines. Cows were sent from Walcha in the New England region of Northern New south Wales to Binalong back in April. Cows have taken advantage of the great season in the south and now present in great forward condition and have since calved out, calves present very fresh and sappy from full udders. Calves range from 2 to 11 weeks old and have yet to be marked, a saleable advantage of 25 male calves makes up the majority of calves at foot. Cows have shown great constitution, staying in calf in very tough seasonal conditions early in their pregnancy to then responding to very favorable conditions in the south over the past months to now having full udders and sappy calves flowing behind. A great opportunity to get a line of proven Angus breeders that have many breeding seasons in front of them.		
Assessor	Steve Daley (Level 1 Accredited) Phone: 0499 898 561
