	Heifers were generally easy to handle throughout the assessment and moved well through the yards. A small number did become slightly stirry whilst being weighed, however nothing detrimental and considered mainly due to the stress of the assessment process. Once returned to the paddock, heifers settled quickly and were quiet and easy to walk amongst.

Assessor Comments	A quality line of Angus heifers with their 1st CAF. Heifers are Table Top Angus blood, with calves at foot sired by Tibooburra Angus blood bulls. These heifers show good frame and growth and should mature into large framed, productive cows. They were good to handle throughout the assessment and settled well in the paddock. Heifers have not been rejoined, giving purchasers the opportunity to join to the bull of their choice. Quality young units with their breeding lives ahead of them and well worth consideration.
