Assessor Comments	The Ley family offer a draft of vendor bred PTIC heifers joined to low birth weight Hazeldean Angus bulls. The 22-23 month old heifers are well grown for their age and present in store / forward store condition. Genuine, well bred heifers that would be a welcome addition to any breeding enterprise. Heifers are due to start calving mid february over a 6 week period (Refer To Vet Certificate). Great opportunity to secure some pregnant females with plenty of potential at a realistic price point.
