Handled With	Well handled heifers, cell grazed behind a single hot wire & frequently moved, walking up to the tape gate & waiting patiently to be let forward on to the new fresh pick each time. Their temperament was reflected in the yards also. Drafting very easily off their calves, being sensible in the race/crush, all exiting quietly & being calm to walk amongst in the yards. All very settled in the paddock as can be seen in the video.			
Notable Traits	Traits 1 Head White Splash on the Flank			
Assessor Comments	Exceptional line of hard to fault young females. Bred by Mintor Beef from Table Top NSW, carrying 15+ years of pure Table Top Angus Blood. These heifers were originally part of the Mintor's 'keeper draft' only being sold due to only retaining the first 2 cycles. These heifers have all calved in a single cycle, giving a nice even drop of calves at foot. This is a lovely line of young mothers with everything right about them. Structurally correct, with a very long, deep, soft maternal barrel on them. Carrying a very good supply of milk and doing an excellent job with their young calves, all looking fresh, sappy and loved. These soft, pretty faced mothers have a very easy doing style about them and would improve most existing herds or be the pinnacle for a starting point, with the added bonus of majority heifer calves to choose next year's keepers from. Buyers please Note. Vendor has another lot of Pure Table Top Angus Blood Heifers & Calves in the same sale, as well as another family member having a lot of Pure Rennylea Angus Heifers & Calves at the same location too.
