	Well handled heifers, cell grazed behind a single hot wire & frequently moved, walking up to the tape gate & waiting patiently to be let forward on to the new fresh pick each time. Their temperament was reflected in the yards also. Drafting very easily off their calves, being sensible in the race/crush, all exiting quietly & being calm to walk amongst in the yards. All very settled in the paddock, one heifer was a little bit more concerned once approached on foot for photos/videos.

Assessor Comments	Exceptional line of hard to fault young females. Bred by the Hearn family from Morven NSW, carrying 25+ years of pure Rennylea Angus Blood. These heifers were originally part of the Hearn's 'keeper draft' only being sold due to a high conception rate in their A.I program. Heifer have all calved in a single cycle, giving a very nice even drop of calves at foot. This is a lovely line of young mothers with everything right about them. Structurally correct, with a very long, deep, soft maternal barrel on them. Carrying a very good supply of milk and doing an excellent job with their young calves, all looking fresh, sappy and loved. These soft, pretty faced mothers have a very easy doing style about them and would improve most existing herds or be the pinnacle for a starting point, with the added bonus of majority heifer calves to choose next year's keepers from. Buyers please Note. Vendor's son has 2 lots of Pure Table Top Angus Blood Heifers & Calves in the same sale, at the same location.
