The temperament of these heifers is exceptional, very quiet and a delight to handle

Handled With	On foot , Vehicles
Assessor Comments	A very smart line of PTIC angus heifers. Heifers are tops of the drop with no heifers being retained due to loss of lease block and switching to a spring calving operation. These heifers are exceptionally well bred, out of a large framed angus herd backed by great breeding and genetics. All heifers were Ai'd to Sitz Stellar on the 17th of May then backed up by Murdeduke V231 & V300 2 weeks later for 7 weeks, due to commence calving on the 25th of February. Recently drenched with Cydectin Platinum, all heifers have had their 2 shots of Pestigard and 7in1. Grazing on improved irrigation country behind a strip tape. Take these heifers home and watch them turn into great maternal heifers while rearing you a calf jam packed full of genetics. Vendor is willing to pull out black baldy heifer if successful purchaser wishes so #PLEASE NOTE SAME VENDOR HAS ANOTHER LOT IN SAME SALE#
