Assessor Comments	A quality line of Angus heifers, Feb/March 2025 drop, displaying renowned Te Mania bloodlines. Heifers averaged 450kg at assessment and present in forward store condition with plenty of frame, length and capacity. These heifers were purchased through AuctionsPlus in December 2025 from the highly regarded "BOOBEROI" operation at Condobolin. They are a quiet, easy-handling line displaying good Angus type and doing ability. Heifers have been preg tested in calf and are due to commence calving from mid-January through to late February. An excellent opportunity to secure a well-bred line of young Angus females with their productive lives ahead of them. With proven genetics, good temperament and condition, these heifers should develop into productive breeding females. A genuine line of young Angus breeders worthy of consideration. Purchase with confidence.
