Assessor Comments

A good line of well grown Brahman cross heifers, PTIC 5–7.5 months to Angus bulls. Heifers are quiet and well handled in the paddock, presenting a great opportunity for purchasers looking to increase breeder numbers with progeny on the ground early in the new year. Buyer please note: Two heifers have already calved, with males calves averaging 55kg at assessment. One heifer was particularly protective of her calf whilst in the yards, however settled once released from the pressure of the yards. Heifers will be delivered to Casino Saleyards at the vendor's expense and will be dipped and cleared prior to delivery. Same vendor has a sister line offered in the same sale.
