Assessor Comments	A quality line of 30x30 Angus and Angus cross cows and calves, with Dulverton Angus calves at foot. The cows have had access to Dulverton Angus bulls for the past three weeks for rejoining purposes. They present in forward store through to forward condition, showing good frame and doing well, with healthy, well-grown young calves at foot. A good opportunity to secure a productive breeding unit with the benefit of quality Angus genetics. With strong buyer competition and confidence underpinning the market. Quality lines of cows and calves such as these remain in demand, with values continuing to strengthen.
