Temperament

Yards	Crush	Paddock
Quiet: 5 head	Quiet: 4 head Slightly Stirry: 1 head	Quiet: 5 head

Cows are well handled and were generally relaxed and calm whilst processing through the yards and crush. 1 cow became unsettled whilst pressure was applied to force her into the crush for weighing after baulking a couple of times at the entry point, but quickly settled once returned to the others.

Handled With	Bikes , On foot , Vehicles
Assessor Comments	A very good quality, smaller line of one-mark, heavy cows, with very attractive calves at foot. These cows were purchased as part of a larger line of cows sourced through saleyards in the Central Tablelands & Central West of NSW, in store condition earlier in the year, to utilise forage crop feed & add value by fattening. This mob represents a line of Charolais cross cows that calved out in the process of fattening. These cows appear to be well bred, exhibiting large frames along with good body length & shape & are presenting in very fresh condition. The marked calves at foot are sappy, & displaying very good carcass shape & softness, & despite unknown bloodlines, they are all exhibiting a high degree of breeding, which is affirmed further through their early weight for age gains. Cows were mouthed at assessment with all cows displaying very fresh middle-aged teeth. Ideal cows to fatten into very heavy types, & secure quality weaners at not much more than the unit outlay, or re-join & retain for years to come as large-framed, quality breeders
