Vendor Bred: No
Vendor has owned stock for More than 12 months

Stock History: Majority of cattle are vendor bred with only a very few that were purchased as heifers. Cows went south on agistment back in April of 26 from the New England, cows starting calving mid from July onwards.

Lifetime Traceable: 100% of cattle in this lot are Lifetime Traceable

Breeding Comments: Cows are from a 25 year breeding program which has a foundation of Wattle Top, Glenavon and Bridge Water angus Genetics. Calves were sired Bridge water angus blood bulls.

Grazing Conditions: Improved fertilized pasture.

	Returned same
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment
HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives

Health Treatments

Cows Drenched	05/04/2026	Cydectin Injectable	
Cows Vaccinated	05/04/2026	5 In 1	Booster

Vendor Comments: Cows came out of very tough and dry conditions back in April, since calved and now looking incredible cows will fit back into any quality breeding program to continue to produce quality offspring.

Joining Details: Station Mated bulls put in: 20/10/2026 bulls taken out: 09/11/2026 (21 days)
Bull Breed(s): Registered Angus
Bull IDs: Millah Murrah Angus..
To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.

Preg Tested?: No, this lot was not pregnancy tested.

Quality Grades	
Very Good	89%
Good	11%

Temperament

Yards	Crush	Paddock
Quiet: 20 head	Quiet: 20 head	Quiet: 20 head

Cows show good quiet natures and were great to handle in and around the yards and had just as good temperaments outside small holding paddock.

Handled With: Bikes

Notable Traits

	Traits
3 Head	Old pink eye scaring in one eye, resulting in a full blue eye, possible loss of vision in that eye.
2 Head	Old pink eye scarring in one eye

Assessor Comments: A Very good quality line of 5 to 8 year old Angus cows and calves on offer, this line of females and their calves come from a breeding program of 25 years that are a base of New England genetics including Wattle Top, Glenavon and Bridge water Angus blood lines. Cows were sent from Walcha in the New England region of Northern New south Wales to Binalong back in April. Cows have taken advantage of the great season in the south and now present in great forward condition and have since calved out, calves present very fresh and sappy from full udders. Calves range from 4 to 16 weeks old and have yet to be marked, this line had a top weight of 180 kgs. Cows will have been rejoined to very good quality angus bulls for 21 days as of the first of delivery. Cows have shown great constitution, staying in calf in very tough seasonal conditions early in their pregnancy to then responding to very favorable conditions in the south over the past months to now having full udders and sappy calves flowing behind. A great opportunity to get a line of proven Angus breeders that have many breeding seasons in front of them. Buyers please note In total there in 76 by 75 cows and calves selling over three lines that are all the same.
