Assessor Comments	A neat run of Angus cows and calves. Cows are in the prime of their life and are doing an excellent job on sappy calves in very tough Monaro conditions. Ideal article to fatten and trade or would be a welcome addition to any Angus breeding program with many years left in them. Vendor is only selling due to ongoing dry seasonal conditions. Calves marked at assessment. Cows have not been rejoined and with fresh feed would be ready for the bull of choice.
