Assessor Comments	An excellent opportunity to secure quality traditional Simmental females, displaying the distinctive markings, breed characteristics and traits associated with well-bred Simmental cattle. The cows range from R (2020) to V (2024) drop, with calves at foot born in August 2026, sired by a Poll Hereford bull. With a change in breeding objectives towards establishing a Poll Hereford base herd, these quality Simmental females are now being offered for sale. This presents an excellent opportunity for prospective purchasers to acquire proven breeding females, with the flexibility to join them to the bull of their choice. Nb At assessment one cow was found to be lame and was treated. At delivery it will be re assessed.
