Assessor Comments: Offering a quality line of 33 Angus cows with calves at foot. Cows range in age from approximately 4–9 years and are joined with young calves aged approximately 1–3 months. The cows have been station mated since 29/10/26 and bull will remain running with the cows until delivery, providing purchasers with the opportunity to secure an established line of Angus breeders with calves at foot and joining underway. The calves have received their first 5-in-1 vaccination, with bull calves marked. This is a good opportunity to purchase a line of Angus breeding females with young calves at foot, suitable for commercial beef producers looking to increase herd numbers or add quality breeding stock to their existing operation. A complete line of 33 Angus cows and calves offering breeding potential and future production. Please note 2 cows have an old pink eye scar.
