These cows and calves were great to assess. These cows are well handled and you can see in the videos are great quality, vendor bred units.

Handled With	Bikes , Dogs , Horses , On foot

Assessor Comments	Buyers here is a once in a lifetime opportunity to purchase decades worth of proven genetics. These Wendouree EU Shorthorn cows are the last of shorthorn herd with the vendor transitioning into and Angus based herd. These females are being sold due to no fault of their own but as a result of the dry season in the Upper Hunter Valley. You will see in the photos and videos the cows are absolute thumpers with a good strong calf at foot. A true testament to the decades of Turanville sires and bloodlines at Wendouree. Both cows and calves are up to date with their health treatments with no money spared. The cows at assessment weighed 472kg - 770kg to average 625kg. The calves' weighed 98kg - 230kg to average 152kg at assessment. The calves at foot are sired my JT Angus Stud bulls. The vendor put the JT Angus Stud bulls back in 1/10/26 and they will remain running with the cows until delivery post sale. Majority of the cows are 3 - 7 years old. All cows that were mouthed were full mouthed and sound. I cannot stress enough how regretful this sale is but presents the successful buyer with a great opportunity to purchase decades worth or tested genetics. Years of performance data with feeder progeny until recently always supplying the 1000 Guineas JBS program.
