Assessor Comments	On offer is a very good line of Red Simmental Cows and Calves. These very well grown cows are classed in breeders to a self replacing herd and are only being offered due to a change in direction. The oldest of these cows were mouthed and all found to have solid blocky mouths and photos of these have been added. These cows are a pleasure to handle and are doing an outstanding job on their calves. Calves have been marked and have had their first vaccination. The female portion of these calves would generally be classed and retained with the steer portion either grown to feeder or kill weights, season depending, otherwise sold to repeat buyers as store weaners. A great opportunity to purchase these cows to add to an existing Simmental herd or for the purpose of a trade.
