Very good to handle in the yards and through the crush

Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , Dogs , On foot
Assessor Comments	On account of Paul and Nikki Nugent, Lighthouse Farming, a very good line of 37 Merridale-blood Angus PTIC heifers. These females represent the vendor's annual draft of autumn-drop heifers and offer an excellent opportunity for buyers seeking quality replacement breeding females. The heifers were included in Lighthouse Farming's structured AI program before being joined to backup Merridale Angus bulls. The Merridale breeding is coming through in these long, stretchy and feminine females, displaying sound structure, good bone and plenty of future breeding potential. During assessment, the heifers were drafted and handled through the yards with ease, displaying a quiet and manageable temperament. PTIC to top-quality Merridale Angus sires, with calving commencing from 15 February 2027. Individual pregnancy status, foetal age, sire details, identification, weights and full animal-health records will be available.
