Of the slightly stirry cows in the crush they mostly walked away & settled once in the mob, there was 1 cow that remain unsettled while videos & photos were being done whilst not aggressive she did move quickly in the yards.. This cow did trott away from the mob when let of yards but did stop & settle back with the mob.

Assessor Comments	A great opportunity to secure young Angus-cross breeders with their productive lives ahead of them. These 1st-calf heifers are NSM and ready to join to the bull of your choice. Originally selected and retained as breeders, they are only being offered due to a change in direction. They are milking well and doing an excellent job on their calves, making them an ideal option for producers looking to boost breeder numbers or establish a quality young breeding herd. One additional orphan calf is included. It is getting some milk and continues to do well, with no adverse effects from having lost its mother. See photos.
