Assessor Comments	An excellent line of 41 x Aug/ Sep 2025 Drop Angus Heifers. A high quality line of heifers that are by high indexing Hazeldean Sires bred from a large framed cow herd based on Hazeldean and historically Rennylea blood. The heifers exhibit excellent weight for age and will grow into impressive breeders or suit a finisher looking to capitalise on the genetics and potential of the heifers. Currently grazing a barley crop the heifers are doing very well and will continue to perform up until delivery. Highly recommended heifers with softness and weight for age a feature. Buyers can expect to buy heifers that will mature into large framed soft, fertile females who produce steer progeny with the capacity to reach feeder weights at 12 months of age. The Cheetham family are also offering 54 x 'lead draft' feeder steers in today's sale.
