	Slightly Stirry: 4 head		Slightly Stirry: 4 head
			Stirry: 2 head
	Steers were very good to handle through a smaller set up, walked through the race and crush well. Only a select few were moving back and forth in crush, settling back down when returning to mob. overall good quiet young steers to handle.		
Handled With	Bikes , On foot , Vehicles		
Assessor Comments	Annual draft of excellent quality weaned Angus steers. These steers are grass-fed accredited and the younger group that are showing good growth and frame for age. These steers are Rennylea, Thompsons and Kunuma bloodlines with vendor selecting sires based on marbling, milk and fertility in herd. Being out of medium to large frame cows, these steers are the ideal feeder article that will respond well to grow out to large trade or export cattle. Yard weaned for 7 days on hay and currently running on crop. Small tail removed to keep an even group of good young steers. Please note: some showing signs of rubbing on coats, call for more information. This family has 3 other lots of steers and heifers in this sale
