	Heifers were very good to handle through a smaller set up, walked through the race and crush well. Only a select few were moving back and forth in crush, settling back down when returning to mob. overall good quiet young heifers to handle.			
Handled With	Bikes , On foot , Vehicles			
Assessor Comments	Annual draft of excellent quality NSM Angus Heifers, that are showing good growth and frame for age. These heifers are grass-fed accredited and Rennylea, Thompsons and Kunuma bloodlines with vendor selecting sires based on marbling, milk and fertility in herd. Being out of medium to large frame Rennylea cows, these heifers would compliment any Angus commercial herd and fit into a good breeding program. Yard weaned for 7 days on hay and currently running on native and improved pastures. A small tail was removed to keep an even group. Please note: One heifer with white on belly, 2 with cloudy eyes and some showing signs of rubbing on coats all deemed not detrimental to sale. Please call for more information. This family has 3 other lots of steers in this sale.
