	Stirry: 1 head		Stirry: 1 head	
	Steers were very good to handle through set up, walked through the race and crush well. Only a select few were moving back and forth in crush, settling back down when returning to mob. overall good steers to handle.			
Handled With	Bikes , On foot , Vehicles			

Assessor Comments	Annual draft of excellent quality Angus feeder steers, that are showing good growth and frame for age. These steers are Rennylea, Thompsons and Kunuma bloodlines with vendor selecting sires based on marbling, milk and fertility in herd. Being out of medium to large frame Rennylea blood cows, these steers are the right feeder weights that will continue to respond well to good feed and grow out to large trade or export cattle. Yard weaned for 7 days on hay and currently running on crop. A small tail was removed to keep an even group of good feeders. Please call for more information. This family has 3 other lots of steers and heifers in this sale
Assessor	Bill Frew (Level 1 Accredited) Parallel Assessed By : Sam Sharman
