| Assessor Comments      | A good quality line of 25 x Angus steers presenting in predominately forward store condition. Averaging 315kg empty at delivery. Will go onto to suit feedlot or bullock orders. These steers have been running on an oat crop, where they have performed exceptionally well. They have been returned to an AGF winter max blend crop until delivery. They are a genuine line of cattle that are going ahead, with every indication they will continue to respond well to quality feed, making them ideal for backgrounding or feeder programs. The vendor is willing to transport these cattle to another Darmody Rayner Livestock & Property Lot within this catalogue where B-double access is available if required. |  |  |
