Vendor Comments	A nice line of 29 heifers from Hunter Valley, plus 6 own bred Angus heifers which were born late and represented in the heaviest of this line of cattle, but still to small/young for the vendor to join later in the year with his other homebredheifers.

Notable Traits	Traits
	1 Head Pinkeye Healing but recent (treated)
	6 Head Ringworm (refer photo's)

Assessor Comments	A nice line of black heifers, with odd bit of ringworm throughout the group. One heifer also had a healing pinkeye which was retreated at assessment, but vendor wanted to notate this heifer and sell group with this heifer included, rather than keep one heifer only. The eye is no longer weeping! Have had a PG to make sure definitely no chance of teen pregnancy. Also drenched recently and lice drenched at assessment for a second time in a month. Purchasers can buy with confidence. Good low dollar cattle to tuck away for spring 2026.
