Assessor Comments	Good line of Angus steers 9 - 12 months presenting in good condition and are on the do. Steers were purchased as young light weaners ex Northern Tablelands and have performed well in current good seasonal conditions. Steers have been broken into electric fencing and are on a rotational grazing program. Moved to a fresh paddock every day, well handled in the paddock. Ideal steers to grow out and fatten on spring feed into kill cattle or export weight feeders.
