Vendor Comments

A very regrettable sale of our classed in heifers due to the tightening season we are experiencing. These are some of the best heifers we have produced in years.

	Generally a very good run of heifers to handle. These calves are well educated in the yards and only the very odd heifer became slightly stirry when pressure was applied, but settled quickly when back with the mob.

Notable Traits	Traits 10 Head Hair loss from heifers mounting each other on rump 1 Head Old pink eye scarring		
Assessor Comments	On offer is an outstanding line of Blue Ribbon Angus Heifers offered by the Bunting Family. These heifers have been classed in and were originally due to be retained and put through the vendors AI programme; however a change in direction has seen them become available for sale. The genetics within these heifers is 1st class with approximately 40% of the mob sired by the AI sire Millah Murrah Quartz Q29 with the balance by top quality Bannaby Angus bulls. Their cow herd has also been heavily invested into with top AI sires used over the past 7 years to continually improve the quality of their cattle. These heifers will grow into terrific cows if given the opportunity with lots of bone and style. They also have all the frame and shape required to reach domestic and export slaughter weights. These heifers are NSM and are ready to take home to the bulls of your choice. Buyers please note that no heifers in this drop have been retained on farm and these are the tops of their drop. There is 58 of these heifers to be offered as a run out the gate of two even lines of 29 head. An opportunity not to be missed !!
